*The Equine Education that Every Responsible Horse Person and Owner Should Have.*

This program offers adults a valuable equine education on horse health and safety. This two-day course includes the following curriculum:

- U **HORSE SAFETY:** Students will learn the safety in riding and being around a horse.
- U **EMERGENCY VET CARE:** This section will be on the most common equine illnesses. What a person should look for and what to do.
- U **BEDS AND BEDDING:** Includes proper barn and stall care for a healthier horse.
- U **HOOF CARE:** The class will learn about the importance of hoof care including proper cleaning and trimming.
- U **CARING FOR INJURIES:** Includes cleaning wounds, caring for swelling and bruises, strains and foot injuries. Hot and cold leg wraps, hot and cold therapy.
- U **NUTRITION AND FEED:** Feeding management, pasture and hay, grains, protein supplements, vitamins and minerals, feeding performance horses, broodmare management and young growing horses.
- U **COLOR AND MARKINGS:** Used to identify horses for registration, veterinary, or legal purposes. Includes the head, leg and body markings.

**Sessions are available to schedule for weekends and weekdays through December. Program hours will be 9:30am – 4:00pm.**

***Cost for program: \$100.00***
